Massive reach and first-party data at scale

- **Reach across Microsoft's diverse portfolio**, including Microsoft Edge,, MSN, Microsoft Casual Games, Microsoft Bing, Outlook, and more.
- Logged-in, identifiable users you won't find anywhere else.
- Only platform with access to Microsoft's unique search intent, web activity, and LinkedIn audience signals.

Brand safety and transparency

- **Platform-wide protection** with Integral Ad Science (IAS) to filter any high/moderate risk sites.
- Independent reports from IAS to verify your ads are seen in viewable placements, by real people, in brand-safe environments.
- Reporting transparency and controls to manage where your brand appears.

Boosted performance

Audience ads influence user behavior⁵:

- 3x more likely to search for your brand.
- 4x more likely to visit your site.
- 6x more likely to convert.

Lower costs

- **You only pay for performance.**
