Video consumption is growing rapidly

Video is quickly becoming the preferred medium to consume content.

Time spent watching digital video is expected to hit **four hours per day** by 2025.

Average time spent per day with digital video
(US, 2021-2025)

As video grows, we can help you to grow your brand

As more consumers turn to video, Microsoft is uniquely positioned to help you grow your brand and stay ahead of the curve

Exceptional reach

Reach large scale audiences across Microsoft properties, publisher partners and Connected TV/OTT.

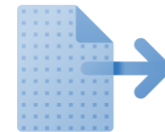

Connect with high value audiences

Use Microsoft's first party data signals and audience intelligence to reach your ideal customers with the right message at the right time.

Designed for ease of use

Get started in just a few clicks. With Microsoft, there are no long onboarding processes, no setup fees, and it's simple to optimize.

Control and flexibility

You set the frequency cap—helping you to prevent user ad fatigue and to plan your budgets and targeting accurately.

A cross-device strategy is essential in era of second-screening

90%

of Gen Z adults in the US use the internet and TV at the same time¹

80%

of users read the news online while watching TV²

You can count on your audience being on two screens at once

Sources: 1. Why performance marketers should capitalize on CTV's surge - Insider Intelligence Trends, Forecasts & Statistics
2. Second Screening - GlobalWebIndex Infographic (gwi.com)

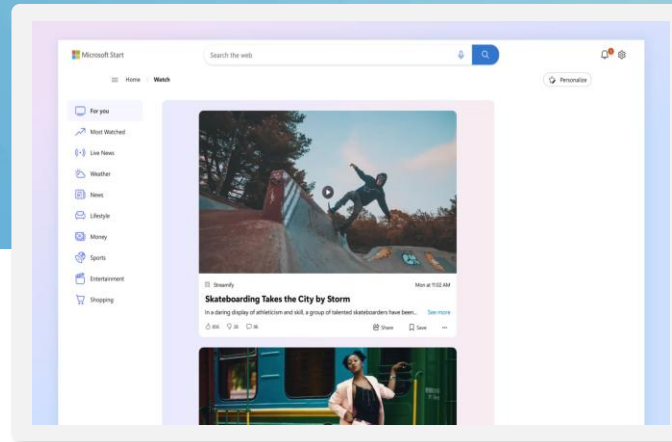

Reach your audience, wherever they are watching

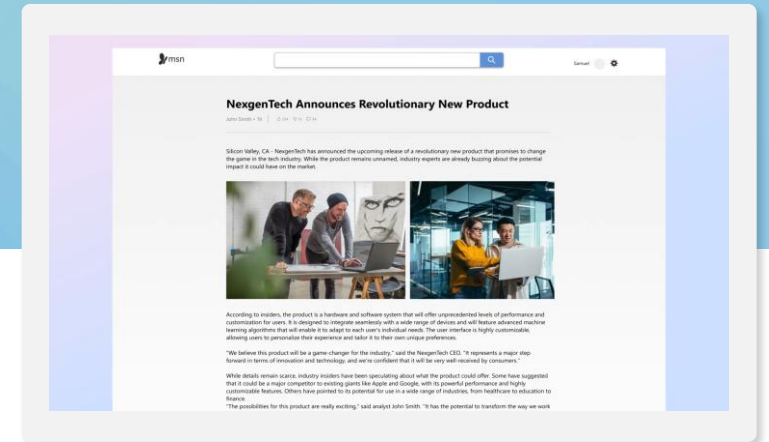

PREMIUM STREAMING

Reach your audience on **smart TVs** and **connected devices** while they are **streaming media** across all devices

ONLINE VIDEO ADS

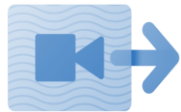

Reach your audience across **desktop, tablet, and mobile** while they are **browsing the web** and **watching online videos**

Examples of ad placements on Microsoft owned and operated properties. These ad examples do not represent all possible ad placements

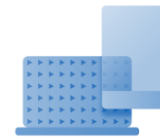

Agility and synergies across video ad types

Engage your audience with **in-stream** and **outstream** video ads across **CTV, OTT** and **online video** placements.

Premium Streaming

Full-screen video ads in streaming TV shows, live events and movies.

Online video ads

In-stream and outstream video ads on sites across desktop, mobile and tablet.

A global marketplace for premium video buying

Unique audience intelligence that's only possible with Microsoft

Leverage billions of permissioned first-party data points, combined across multiple properties, to reach your best customers.

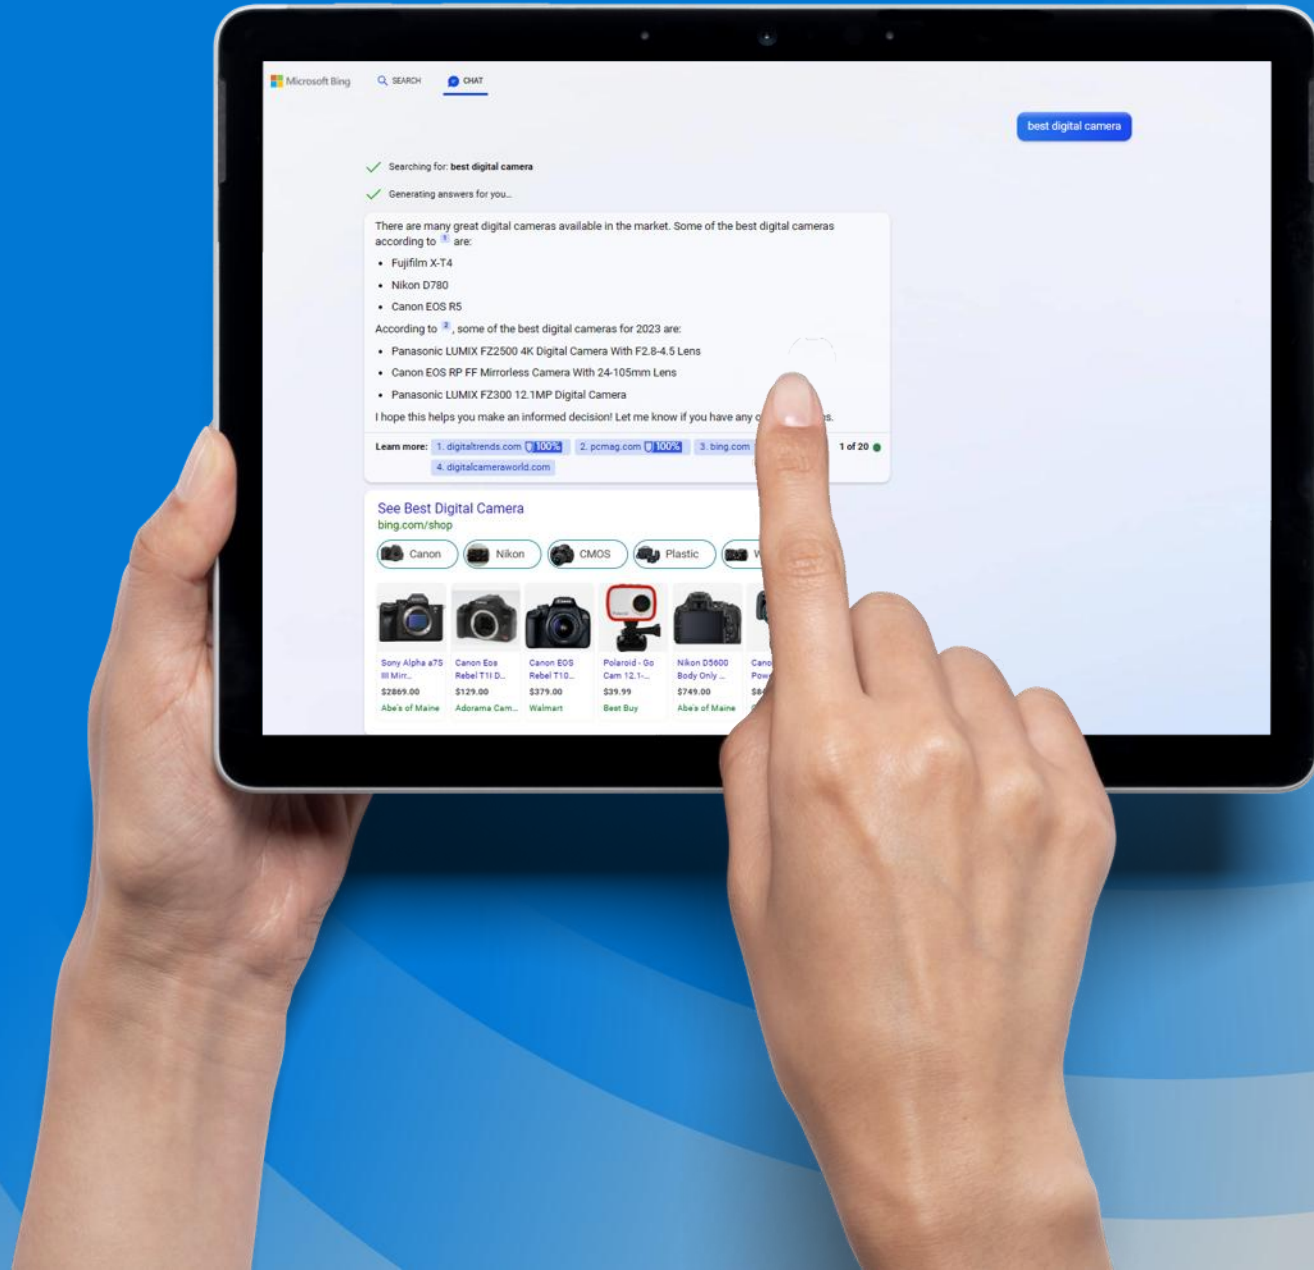

Combine the impact of video with the intent data in search

When someone **searches** for something, it means they are **interested**.

It is one of the most powerful signals to inform marketing decisions.

You can use search intent signals to get your ads in front of a valuable audience, in the moment when it matters.

Target highly qualified audiences to deliver results

Use Microsoft's powerful audience intelligence to reach your audience and drive brand awareness

*Genre targeting is only supported on Premium Streaming campaigns

Maximize ad impact with 100% viewable impressions

With Microsoft Advertising, you will only be charged for viewable impressions and completed views

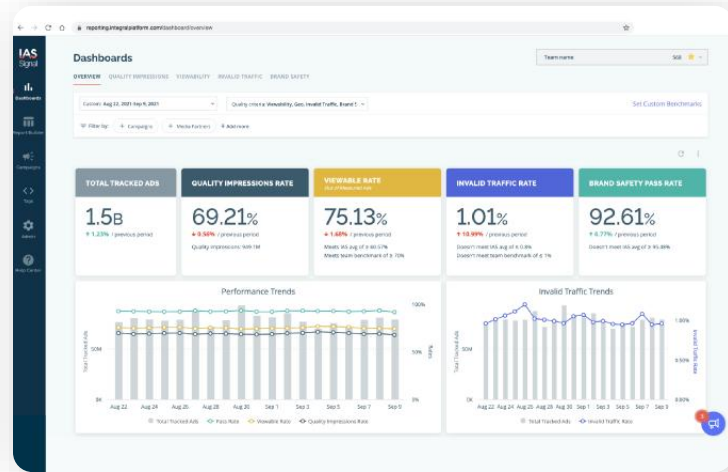

- + Be guaranteed of **no wasted spend** on hidden ads.
- + Ensure your ads are **seen by your target audience**.
- + Drive impact and achieve **higher engagement**.

*For video ads, viewability is defined as 2 seconds of continuous play when video is $\geq 50\%$ in user's view. Premium Streaming ads are charged on completed views when someone watches your ad in its entirety.

Third-party verification for Online Video Ads

Receive reports on viewability, invalid traffic, and brand safety and suitability from Integral Ad Science.

List of metrics are examples and not exhaustive.

Integral Ad Science (IAS) measurement capabilities

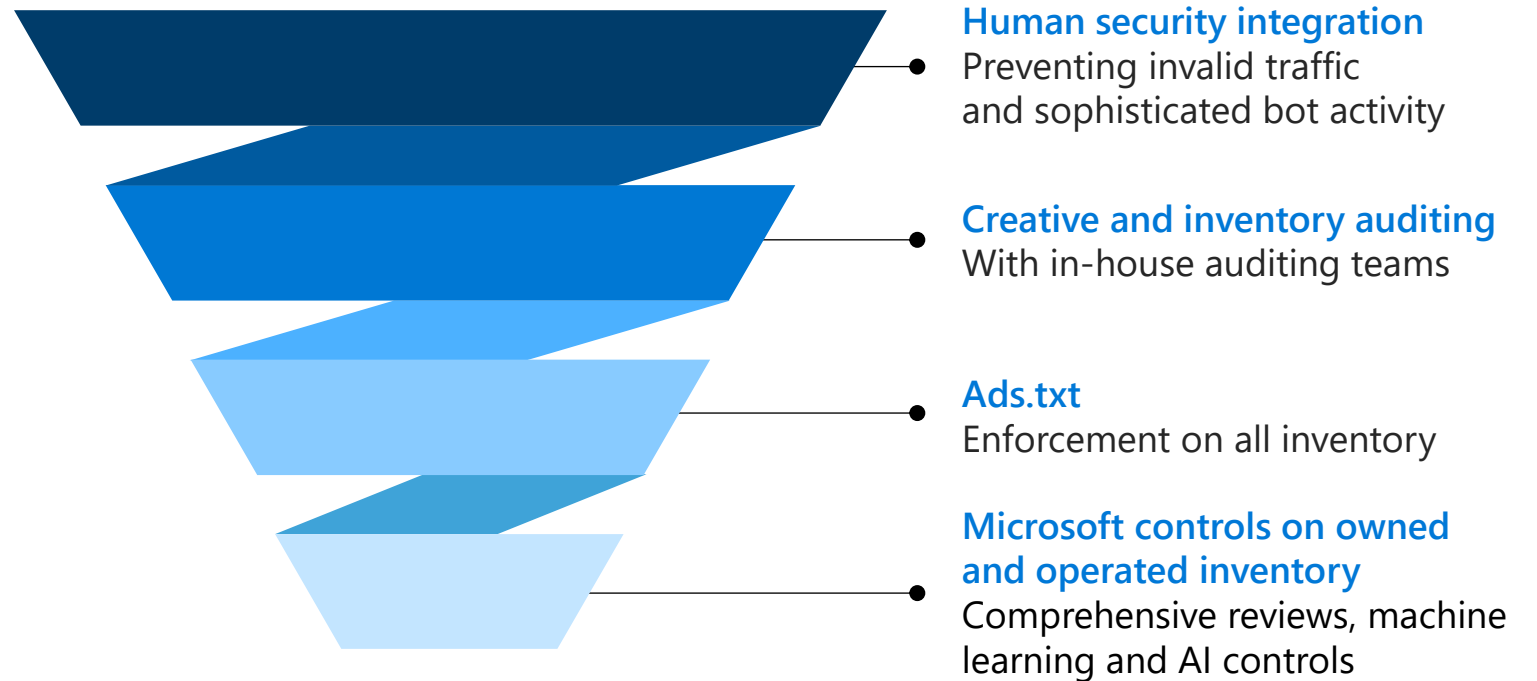

- Independent reports to **verify your ads** are seen in viewable placements, by real people, and in brand-safe environments.
- Add IAS tag URLs on your **online video ads** that use any bid strategy.

Viewability	Invalid traffic	Brand safety
Total tracked ads	Valid traffic ads	Passed ads
Viewable impressions	Invalid traffic ads	Failed ads
Viewable rate	General invalid traffic	GARM floor risk ads
Measured ads/rate	Sophisticated invalid traffic	Brand sensitive ads
Completed ads	Reduced value inventory	% brand sensitive ads

You must be partnering with IAS to use these measurement capabilities.

By participating in this beta, you agree to the terms and conditions of IAS's Beta Participation Agreement found at <https://integralads.com/beta-participation-agreement/>

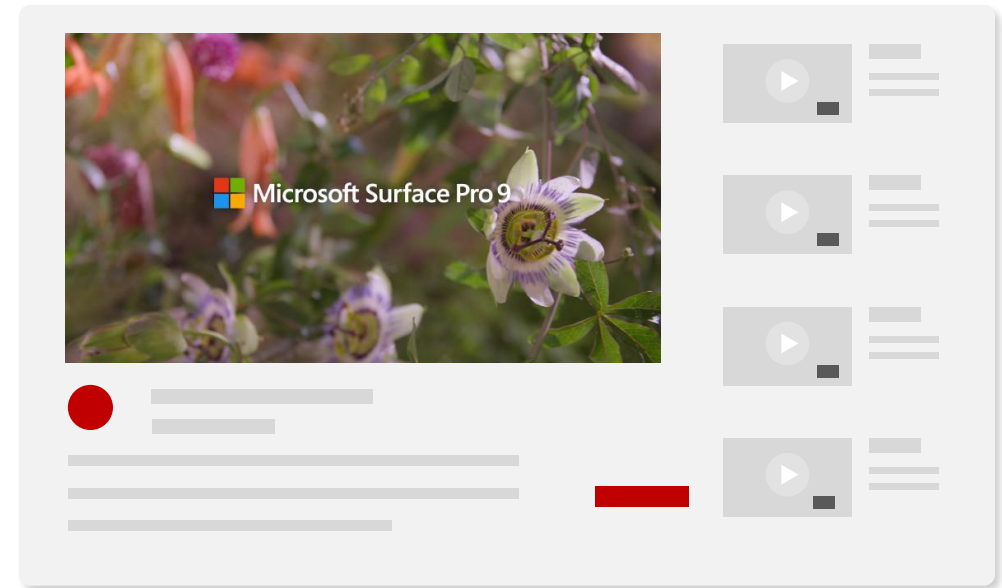

Keeping your brand safe is our priority

Reach and frequency, aligned for your goals

With the option to specify your own frequency cap on video campaigns, you can control how many times video viewers see your ads

- + Prevent user ad fatigue
- + Improve reach and effectiveness of your campaigns
- + Reinforce your brand message
- + Accurately plan budgets and targeting

Reach your audience in the moment that matters

Complement your video strategy with our other native ad formats and search ads to engage your customers across the funnel

Ad formats		Premium Streaming	Video
MAXIMIZE REACH	Bid strategy	Cost per completed view (CPCV) Set the highest amount you want to pay per completed view	Cost per thousand viewable impressions (CPM) Set the highest amount you want to pay for 1,000 viewable impressions
			Enhanced cost per click (CPC) Set a bid you want to pay per click and automatically optimize in real time to increase your chance of conversion
MAXIMIZE CONVERSIONS			Maximize conversions & target CPA Get as many conversions as possible – with an option to set a given CPA target

Preparing your video assets

To access more premium online video and CTV and OTT inventory, advertisers need to upload higher quality assets.

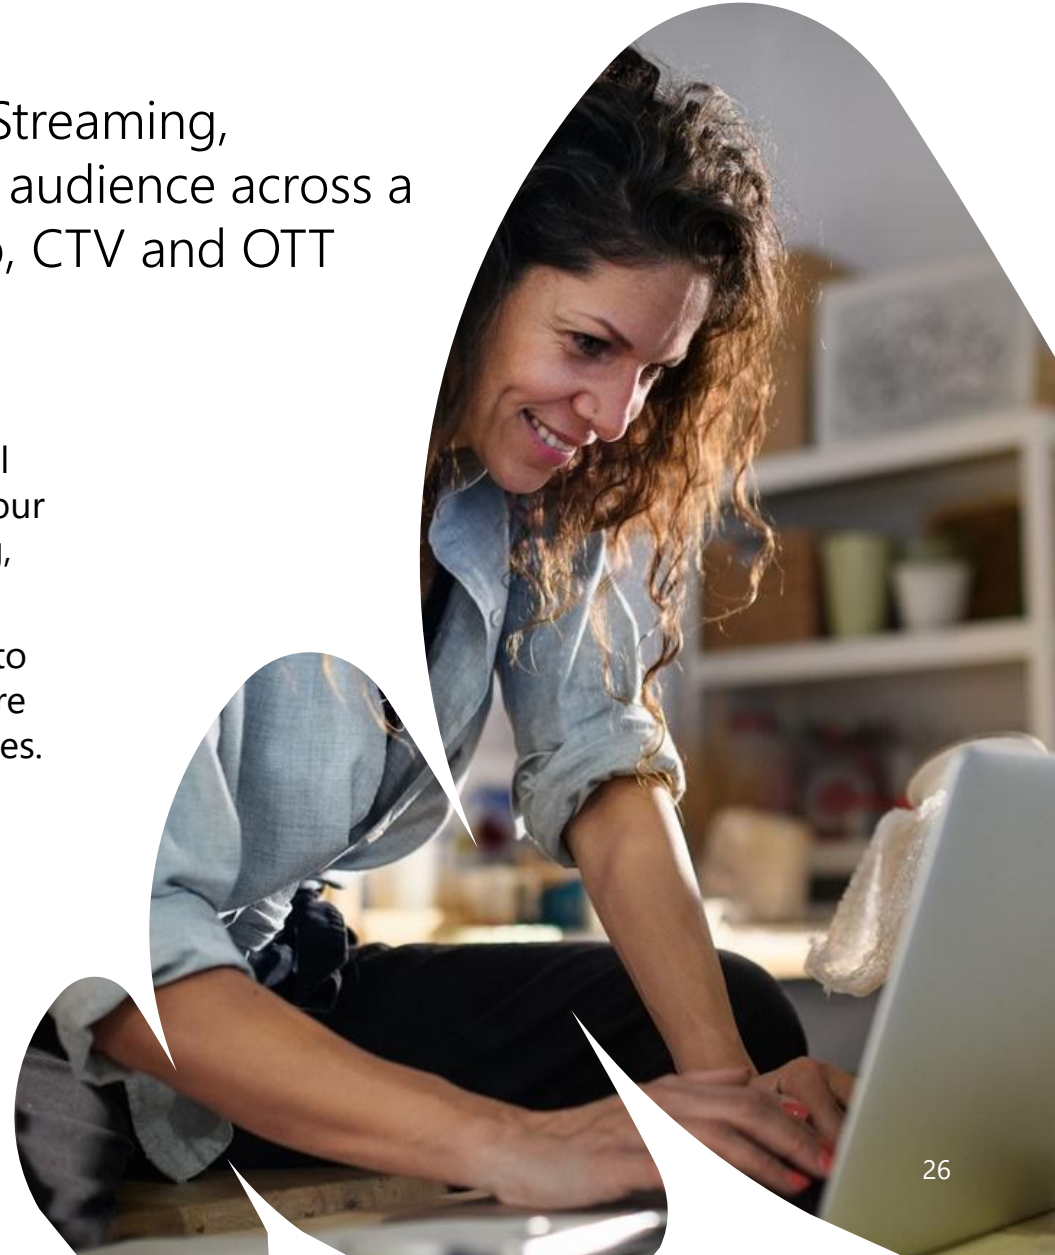

Video assets are categorized in three ways:

- Fair quality
- Good quality
- Excellent quality

With Video and Premium Streaming, advertisers can reach their audience across a wide range of online video, CTV and OTT inventory.

Once you upload your videos to Microsoft Advertising, the system will determine which quality standards your video meets using a three-star rating, with three stars being the highest.

Use the guidelines on the next slide to understand what the requirements are for each of the different video qualities. If you wish to advertise on our most premium inventory, ensure that your video meets the excellent quality requirements.

Video specification requirements

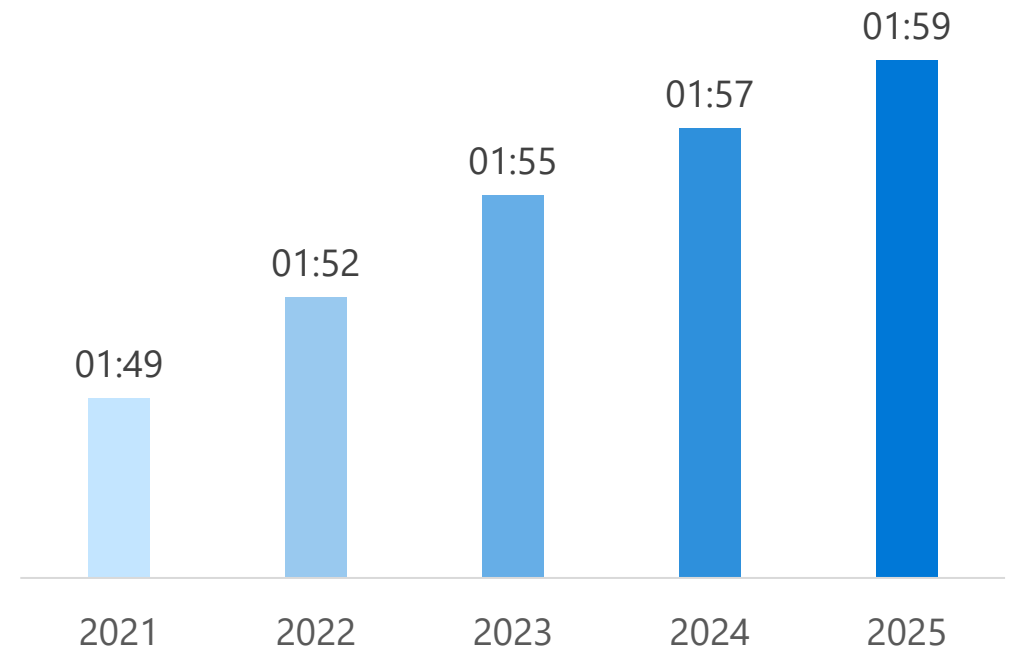

Attribute *Denotes a required attribute, all other attributes are recommended for best results	 Fair quality	  Good quality	   Excellent quality*
File size limit	2 Gigabytes for video creatives (max size)	2 Gigabytes for video creatives (max size)	2 Gigabytes for video creatives (max size)
